

DRAPERY

Switch/Remote

Robust and built to last, these switch and remote options pair with your Motolin™ motors to provide many, trouble-free years of service. Perfect for ADA rooms.

RECESSED (IN-WALL) SWITCH

These are mounted into the wall via a standard junction box or a low voltage cut-in ring (recommended). No wiring is needed as it controls the shade via radio frequency. Requires two AAA batteries.

Motor compatibility: ML-710MS & ML-710B
